Responses to Request for Information (RFIs) for Cooperative Agreement N62473-19-2-0019 Vegetation Community Mapping On Chocolate Mountains Aerial Gunnery Range, Marine Corps Air Station Yuma, Arizona, Ca. Applicable attachments provided within the CESU portal. Please see the amended request for statements of interest/request for proposals and statement of work for changes. Deletions made are noted with a strike through font. Additions made within the statement of work are noted with a red bold italic font. Due dates for Statements of Interest remains unchanged at September 4, 2019 2:00 PM local standard time. This Request for Statements of Interest will remain open until an investigator team is selected. Statements of Interest received after September 4, 2019 2:00 PM local standard time is considered “late” and may not be considered.

Question 1: What is the proposed start date? Is January 1 OK with you?

Answer 1: The proposed start date is anticipated to be mid to late September. It is possible to have field work start in January of 2020. However, the start date of the award will be the anticipated date of award in mid to late September. Based on the amount of work to conduct it is advised to start pre-field work activities (i.e. workplan creation, fieldwork planning, supplies purchasing, and any computer efforts, and/or habitat modeling using remotely sensed data) as soon as possible (immediately after award).

Question 2: Is it possible to amend the period of performance to reflect 18 months?

Answer 2: Yes. The statement of work has been amended to reflect a period of performance of 18 months.

Question 3: Is the page limitation for the resumes per person or for per key personnel category?

Answer 3: The page limitation for resumes is per person.
