

Farm and Ranch Weather and Climate Workshop

June 12, 2014 – 8:30 -12pm

(Check-in begins at 8am)

Willcox Community Center – fireplace room

312 W Stewart Street, Willcox

University of Arizona Cooperative Extension and the National Weather Service – Tucson Forecast office are sponsoring a morning long training workshop on weather and climate information focused on supporting agricultural and resource management decision- making. Topics will include:

- Finding and interpreting NOAA-NWS weather monitoring and forecast products
- An overview of the UofA Arizona Meteorological Network and crop and irrigation management products
- A discussion of drought monitoring efforts including an overview of the U.S. Drought Monitor
- El Niño and an update of seasonal forecasts through winter of 2014/15

The workshop will end with an informal discussion of information needs and opportunities for further product and service development to support southeast Arizona. Lunch will be provided.

Please register for the workshop by June 6th by calling 520-384-3594 or by emailing Connie at cforsyth@ag.arizona.edu

Sponsors include Southeastern Arizona Ag Day and...
